Open Postdoc Position

The Augustyn Research Group in the Department of Materials Science and Engineering at North Carolina State University is seeking a Postdoctoral Research Associate. Multiple research topics are available in the broad area of materials electrochemistry, including electrochemistry under confinement in layered materials and proton-coupled electron transfer with transition metal oxides.

Ph.D. graduates with backgrounds in electrochemistry, materials chemistry, materials science, electrochemical engineering, or related fields are encouraged to apply. We are seeking a creative individual with good interpersonal communication and time-management skills, commitment to laboratory safety, and interest in highly collaborative research. Our group offers a collaborative, supportive, and inclusive work environment with many opportunities for professional development.

About the Department

Materials Science and Engineering at NC State is recognized as one of the premier national and international academic and research programs. The department contains 24 tenure/tenure-track faculty members, three teaching/research faculty, ten research staff, 14 postdoctoral research scholars, and almost 300 graduate and undergraduate students.

About North Carolina State University

Located in Raleigh, North Carolina, NC State is the largest university in NC, with more than 34,000 students and 8,000 faculty and staff. National rankings consistently rate Raleigh and surrounding regions among the five best places in the United States to live and work, with a highly educated workforce, moderate weather, reasonable cost of living, and a welcoming environment. NC State is one of three major research universities anchoring the Research Triangle, along with Duke University in Durham, and University of North Carolina at Chapel Hill. The Triangle is home to major tech companies Red Hat, IBM and SAS, and soon, a Google Cloud Engineering Hub and a $1B Apple campus. Raleigh also boasts over 100 miles of greenway, a vibrant music and arts community, and is centrally located to beaches and mountains within a 2 hours drive.

To apply please send a cover letter indicating interest and future career goals, CV and contact information for three references to Prof. Veronica Augustyn at vaugust@ncsu.edu with “Postdoctoral Research Associate Application” in the subject line.
